Auxiliary Equipment

Phone Booth Series 100/200

The Phone Booth series 100 and 200 have been developed in order to provide robust and cost-effective equipment for the accommodation of wall mounted type phones.
The advanced CAD design and development as well as the highest quality materials utilised, result to aesthetically attractive Phone Booths with maximum user comfort.
INTRACOM Phone Booth's inherent modularity allows easy replacement of any vandalised element through the exploitation time, offering simple maintenace and improved features.

OS-211

Product Description

INTRACOM's Phone Booths comprise two main series. The Series 100, containing indoor installation models and the Series 200 for outdoor installations.

Series 100

Model IW-101

Wall mounted, lightweight but robust indoor Phone Booth, ideal for limited space installations (i.e. building corridors etc.)

Model IS-111

Stand-alone, post mounted indoor Phone Booth for weather protected sites. (i.e. subway stations etc.)

Model ISD-121

A combination of the models IW-101 and IS-111 resulting to a dual, stand-alone, back-to-back, indoor Phone Booth (i.e. weather protected sites of increased user density).

Series 200

Model OW-201

Wall mounted, robust and vandal proof, outdoor Phone Booth, ideal for unattended installation sites exposed to weather conditions (i.e. building fronts etc.)

Model OS-211

Stand-alone, post mounted outdoor Phone Booth for weather exposed installations. (i.e. road sides, squares etc.)

Model OSD-221

A combination of the models OW-201 and OS-211 resulting to a dual stand-alone, back-to-back, outdoor Phone Booth (i.e. weather exposed installation sites of increased user density).

Product Characteristics

The Phone Booth series 100/200 comprise the following characteristics:

Modern and Functional

- Attracts attention to enclosed phones
- Coloring upon customers choice (RAL color range)
- Customised graphics and trademarks on sides and internal advertising panel
- Large advertising space on the Phone Booth back panel (only for stand-alone models).

Utilising All Phone Types

- Accommodates INTRACOM's INT 100 and INT 200 cardphones
- Adapts any other type of phones upon customer's request.

OW-201

User Comfort

- Designed according to ergonomic standards
- Disabilities act compliant
- All-weather proof
- Efficient reduction of background noise
- Stainless steel inclined writing shelf
- Optional interior lighting for series 200 models.

Robust and Environment Proof

- Withstanding a wide range of environmental conditions
- Vandal Proof design and materials
- Tamper Proof design (special tool required for disassembly).

High Quality

- Satin Stainless Steel main panel
- Stainless Steel fastening material
- Automobile industry type, tinted, side transparent panels with aluminium frame and scratch proof decorating printings (Series 200)
- Thick acrylic transparent panels (Series 100)
- Hot deep galvanized post (120 μm thickness)
- Electrostatic polyester powder finishing (100 μm thickness)

IW-101

Easy Installation and Maintenance

- Minimum installation space required (stand-alone models)
- Minimum wall space required (wall mounted models)
- Modular design composed of interchangeable parts
- Secure installation due to four fixing points (two of them are inaccessible)
- Connecting boxes for the telephone lines and the power supply (stand-alone models).

Environment Friendly and Recyclable

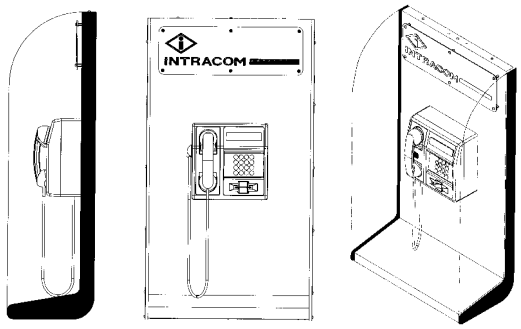

- The adopted manufacturing process does not pollute the environment
- All models can be easily recycled after their exploitation time.

Features

- Modern and functional
- Utilised for almost every phone
- User comfort
- Robust and environment proof
- High quality
- Easy installation and maintenance
- Environment friendly and recyclable

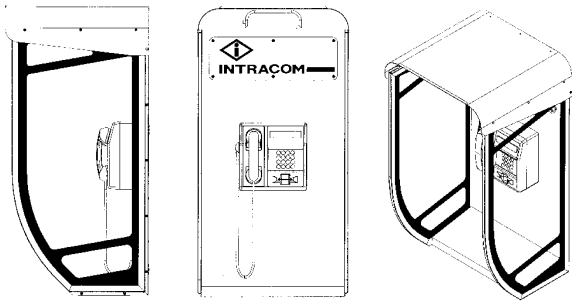

Technical Specifications

Model IW-101

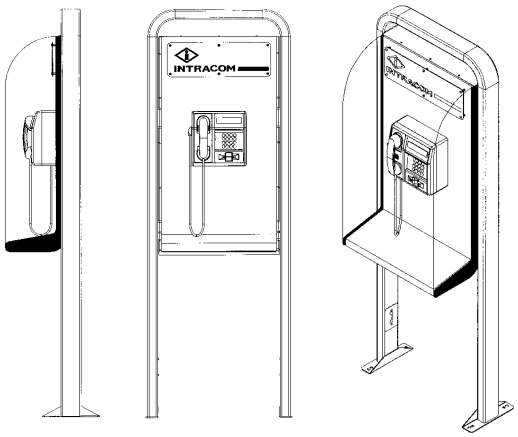

- Dimensions in mm: (H) 1086 (W) 606 (D) 305
- Weight: 25.5 kg
- Phone Booth constructed of stainless steel with 10 mm thick acrylic transparent side panels

Model OW-201

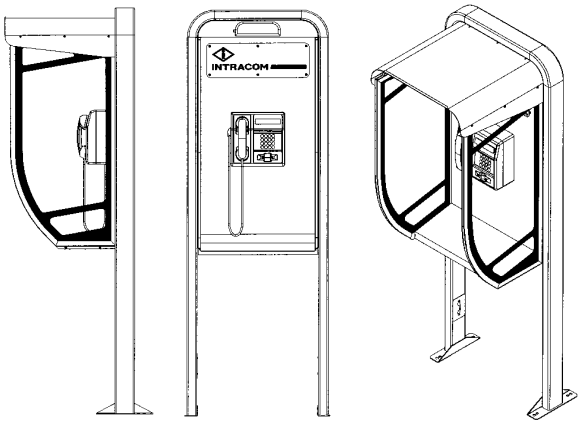

- Dimensions in mm: (H) 1179 (W) 617 (D) 579
- Weight: 42.0 kg
- Phone Booth constructed of steinless stell with tempered tinted glass side panels
- Internal lighting optional

Model IS-111

- Dimensions in mm: (H) 2056 (W) 742 (D) 476
- Weight: 73.0 kg
- Phone Booth constructed of stainless steel with 10 mm thick acrylic transparent side panels
- Post constructed of hot deep galvanized and painted carbon stell.
- Back to back installation on the same post without any extra fittings

Model OS-211

- Dimensions in mm: (H) 2056 (W) 742 (D) 755
- Weight: 92.0 kg
- Phone Booth constructed of stainless stell with tempered tinted glass side panels
- Post constructed of hot deep galvanized and painted carbon stell
- Internal lighting (optional)
- Back to back installation on the same post without any extra fittings
